Step 3: Check Microphone Levels

1. Open **Voice Record App**

2. **Select OK** so Voice Record can access microphone

3. Select **Record**

4. **Select Yes** to allow Audio Engine to Calibrate

5. You may have to select **Record** again
Step 3: Check Microphone Levels

6. Select **Level Check**

7. Hold down + sign on both the Microphone and the Receiver

8. While continuing to hold down + signs, talk into the **Microphone** until the input meters both register at least 5

9. Your microphone level is set. You can close the **Voice Record** app and continue with your setup process.
